jamshidct99@gmail.com | +91 9061819957
Malappuram, Kerala

SUMMARY

A dynamic developer with 3 years of experience in software development and 2 years specializing in Flutter. Skilled in native iOS and Android development, with a strong understanding of design patterns like MVC and BloC for structuring high-quality, maintainable applications.

SKILL SUMMARY

- **Languages :** DART, SQL, HTML, CSS, JAVA SCRIPT, JAVA
- **Frameworks :** Flutter, Spring boot
- **Tools:** PostgreSQL, MySQL
- **Platforms:** Visual Studio Code, Android Studio
- **Soft Skills :** Problem-Solving, Adaptability, Time Management

WORK EXPERIENCES

JUNIOR SOFTWARE ENGINEER
november 2022 – Present

Datafloat Technologies pvt ltd.

- Developed full-stack applications across various platforms using latest industry-adopted technologies and frameworks
- Developed and implemented robust and scalable software solutions using Flutter and Spring boot ensuring efficient and maintainable code.
- Handled API integration in Flutter, developed intuitive UI designs, and implemented state management using BLoC and Cubit patterns to ensure efficient and scalable application performance.

SOFTWARE DEVELOPER INTERN
september 2021 - november 2022

GJ Global It Ventures pvt ltd

- Overcame significant technical challenges, including integrating with multiple payment gateways (RazerPay, Ezypay, Paytm, etc.), to successfully integrate these services with our Spring Boot-based fintech platform.
- Developed a microservices architecture using Spring Cloud to improve scalability and maintainability, reducing application downtime by 50%.
- Implemented a custom authentication and authorization mechanism using Spring Security to enhance data security and protect sensitive user information.

PROJECTS

TRAVIT

Travit revolutionizes travel planning by connecting users with travel influencers and fellow travelers to uncover hidden gems and create personalized itineraries, making travel effortless, enjoyable, and deeply enriching.

- Worked on onboarding processes, project design, chat integration, user profile editing, and implementing best UI design practices. Additionally, contributed to defining and refining the project architecture.

IDC CRM APP

IThe IDC CRM app is a mobile application designed to serve as a companion for real estate companies using the IDC Global platform. This app supports various CRM systems such as MyConnect, ONESuite, MyHub, The Vault, and more. It enables real estate agents to stay in touch with clients while on the go, track client interactions with agent marketing, and function as a mobile open house registration system.

- Successfully integrated agent onboarding, property search functionality, real-time chat with property buyers, and Google API services into the IDC CRM app, enhancing agent productivity and user experience.

REALTY ONE GROUP HOME SEARCH APP

The Realty One Group Home Search app is a powerful and user-friendly tool designed to enhance the home search experience. It allows users to search for properties for sale or recently sold in a convenient and efficient manner. Users can choose to search by Map View, which shows properties around their current location or within a custom-drawn boundary, or by List View, which allows for searches based on specific addresses, cities, states, and zip codes.

- Successfully integrated user onboarding, property search functionality, real-time chat with agents, Listing alert , enhancing user productivity and experience.

EDUCATION

BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE

College of Engineering, Kidangoor, Kottayam   *2017 - 2021*
